FROM LABORATORY  
Advanced Course in Antiretroviral Therapy  
TO PATIENT

WEST COAST COURSE

November 19 and 20, 2004  
San Francisco, CA

*Participation is free of charge*

This course is being made possible through an unrestricted grant from Roche Pharmaceuticals

EAST COAST COURSE

October 8 and 9, 2004  
New York, NY

*Participation is free of charge*

This course is being made possible through an unrestricted grant from Roche Pharmaceuticals

*Course chairmen:*

**Charles Boucher, MD, PhD**  
University Medical Center Utrecht, the Netherlands

**David Cooper, MD, DSc**  
University of New South Wales, Australia

**Jonathan Schapiro, MD**  
Sheba Medical Center, Israel and Stanford University USA

*Course faculty:*

**Terrence Blaschke, MD**  
Stanford University

**Steve Deeks, MD**  
UCSF

**Jay Lalezari, MD**  
UCSF, Mount Zion Hospital

**Robert Shafer, MD**  
Stanford University

**Nancy Shulman, MD**  
Stanford University

*Course chairmen:*

**Charles Boucher, MD, PhD**  
University Medical Center Utrecht, the Netherlands

**Daniel Kuritzkes, MD**  
Brigham and Women's Hospital

**Jonathan Schapiro, MD**  
Sheba Medical Center, Israel and Stanford University USA

*Course faculty:*

**Joe Eron, MD**  
University of North Carolina at Chapel Hill

**John Gerber, MD**  
University of Colorado Health Sciences Center

**Roy Gulick, MD**  
Cornell University

**Mark Sulkowski, MD**  
Johns Hopkins University

**David Wohl, MD**  
University of North Carolina at Chapel Hill

# invitation

# FROM LABORATORY Advanced Course in Antiretroviral Therapy TO PATIENT

## AT THE COMPLETION OF THE COURSE THE PARTICIPANT WILL

- Have a sound understanding of the concepts regarding HIV resistance and resistance assays
- Have an understanding of the interpretation of resistance assay results
- Understand how resistance assays can best be incorporated into clinical practice
- Have knowledge of the basic concepts of pharmacokinetics and TDM of antiretroviral agents
- Have an understanding on how TDM might be applied in clinical practice
- Have knowledge of new antiretroviral agents entering clinical practice
- Understand how best to integrate new antiretroviral agents into routine clinical practice
- Have knowledge of the metabolic complications of antiretroviral therapy and their management
- Understand the challenges of HIV/Hepatitis co-infected patient and their management

## THE FOLLOWING TOPICS WILL BE COVERED

- New developments in HIV resistance
- The challenge of resistance testing for entry inhibitors
- Clinical application of resistance testing
- New antiretroviral agents
- Optimally integrating new drugs into clinical practice
- New developments in pharmacology and therapeutic drug monitoring
- Metabolic complications of HIV therapy
- HIV/Hepatitis C co-infection
- Viral fitness and clinical relevance

TO REGISTER FOR THIS COURSE PLEASE GO TO [www.virology-education.com](http://www.virology-education.com)

### PLEASE TICK

- I do not have internet access; ( please tick, fill in this form and fax it to 011 31 30 230 7148 )
- I am unable to attend From Laboratory to Patient this time but would like to learn more about future programs ( please tick, fill in this form and fax it to 011 31 30 230 7148 )
- If you have questions, please email to [info@virology-education.com](mailto:info@virology-education.com)
- PLEASE NOTE Course attendance is free of charge. Course fee, program materials, breakfast and lunch for both days of the course will be provided at no cost to attendees. All other expenses incurred are the responsibility of the attendee.

From Laboratory to Patient is sponsored by the Stanford University School of Medicine and the NYU School of Medicine. The Stanford School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The Stanford School of Medicine designates this educational activity for a maximum of 9.5 hours in category 1 credit toward the AMA physician's Recognition Award. Each physician should claim only those hours that she/he actually spent in the educational activity.

In accordance with the Accreditation Council for Continuing Medical Education (ACCME) Standards for commercial support, the faculty for this activity have been asked to complete Conflict of Interest Disclosure forms. Disclosure is required to be provided in writing to attendees, participants at meetings, or provided in print, audio or video depending upon format.

The Stanford University School of Medicine is an equal opportunity/affirmative action institution

From Laboratory to Patient is made possible by an unrestricted grant from Roche Pharmaceuticals

## I WOULD LIKE TO REGISTER FOR THE FOLLOWING COURSE

WEST COAST 19 & 20 NOV.  EAST COAST 8 & 9 OCT.
